To whom it may concern:

It was one of my most important opportunities to have had a chance to work with Craig Womack in my business career. I have been representing the Japanese market leader massage chair manufacturer, FAMILY Co., Ltd. and did work for over two years with Craig with regards to supplying our product to his company. We have accomplished some successes in most products and experienced a bit tough situation together, but I have learned from him how a great business man's behavior and what the strategic thinking should be, regardless of what situation we are in. This is still a greatest asset I keep.

Specifically, I assume his great business skill and leadership should have come from his wonderful business career in major retail business in the US. I have always been amazed by his ability to analyze any project from various angles and make calm judgment based upon strategic thinking. This is still supported by his warm personality when he worked with us as a team. This allowed us to comfortably and amicably develop and maintain a positive and heartwarming relationship business-wise and it also supports our personal friendship, which still remains.

I fully trust his personality and business skill will always be respected and will help anybody who is to work with him.

Best Regards, Masaki Kagano
